

St. John - Sacred Heart
Catholic School

A Tradition of Academic Excellence & Faith-filled Living

WHAT MAKES ST. JOHN-SACRED HEART SCHOOL GREAT?

LET OUR STUDENTS TELL YOU!

“St. John-Sacred Heart School has a lot of things that make this school great, but if I could choose one, I would choose the staff and our volunteers. They are kind and teach us many new things...take our Janitor Mr. Dave for instance, he cleans the schools so nobody gets sick. Thank you staff and volunteers!” By: Aaron

“I think St. John-Sacred Heart School is great because the learning is good. They teach about how Jesus came to earth as a baby and gave his life up for all of us. There is also Mass on Wednesday and the church is really close to the school so we can just walk there...and there is no bullying. So if you are looking for a school, I think you should choose St. John-Sacred Heart.” By: Kayla

“...SJSH is great because it is a small school, not like the Hilbert public school. We have great staff and great students. Our principal, Mrs. Behnke, is so good at doing her job, we love her so much....Mr. Dave, he works so hard, we really appreciate him. These are what I believe make SJSH great.” By: Blaze

“I like St. John-Sacred Heart School because...the school has really nice teachers who help us learn. I also really like that because we are a small school we are still able to be in school with COVID-19. All the people here are really nice which makes me want to keep on going to our school.” By: Hadley

“St John-Sacred Heart is such an amazing school! The thing I love is the size of the school. I did not like the last school I was at because there were way too many people...I also love that the teachers sometimes work individually with students if they need certain help...I just love that this school is pretty much what anyone can ask for.” By: Alexa **MORE >>>**

"...Each person gets individual projects that are just right for them. Not everybody in one grade gets the same project. Instead 4 people could get the same project, then 2 people get something different. This way people get what they are ready for...I also love how small the classes are...the students get more time with the teacher..." By: Miranda

"St. John-Sacred Heart School has good teachers and a great principal...SJSH also builds up my Christianity which builds up a Christian community of others. SJSH volunteers let us go on field trips so we are really grateful to have good volunteers." By: Colton

Core Values
Generous Fair Faithful Trustworthy
Honest Cooperative Respectful

"...There are so many opportunities that the students get to have here...Blended learning has been great since we started doing it. It helps students learn at their own pace and their own level...The small class sizes also help me to learn more and focus better...Also the religious values that it teaches kids. It teaches kids about the Catholic faith and about loving and worshipping God at a young age...then they have a much higher chance of keeping it with them for the rest of their life..."

By: Logan

"...We each get to learn about our classmates and no one feels left out. With the smaller class sizes we are able to get more independent learning, so I am able to get more advanced learning...we are able to be ourselves without being made fun of.

By: Savannah

"...The smaller class sizes allow for more 1-on-1 time and better grades...the teachers plan fun activities and good lesson plans for us students to learn."

By: Peter

"...I appreciate that everyone is very welcoming when you first walk in the door. The volunteers and staff are very nice. St. John-Sacred Heart is a good school because of the friends and learning opportunities you get. The individual help is also good. I like how church is close..."

By: Sophia

"...Everyone here is very nice. I feel like this is my 2nd home. Everyone is so caring and loving. St. John-Sacred Heart is a very special school and I love it for that. The teachers always give you help whenever you need it."
